

Public Service Law Section 66(12)(l) requires the Public Service Commission (PSC) to publish certain information about a rate change for an electric or gas utility.

## New York State Electric & Gas Corporation Electric Rate Case Summary

On June 30, 2025, New York State Electric & Gas Corporation (NYSEG) submitted a rate filing to the PSC (**Case 25-E-0375**). The Administrative Law Judges held litigated hearings from February 9, 2026 through March 6, 2026. The PSC adopted an Order Establishing Temporary Rates on May 14, 2026 granting NYSEG a temporary increase of annual electric revenues of \$52.572 million. The increase in revenues equates to a 3.7% increase in total revenues.

### Typical delivery and total bill increase by customer type:

|  | Company Request (RY1) |      | Temporary Rate Order |     |
|--|-----------------------|------|----------------------|-----|
|  |                       |      | RY1                  |     |
| <b>Delivery Bill Increase</b>  | (\$)                  | (%)  | (\$)                 | (%) |
| Residential using 600 kilowatt-hours per month   | 33.12                 | 34.7 | 0.32                 | 0.9 |
| Commercial using 3,650 kilowatt-hours per month with a 25 kilowatt monthly demand      | 155.37                | 24.9 | 4.12                 | 0.7 |
| Industrial using 146,000 kilowatt-hours per month with a 1,000 kilowatt monthly demand | 5,899.50              | 30.8 | 47.87                | 0.2 |
|  | Company Request (RY1) |      | Temporary Rate Order |     |
|  |                       |      | RY1                  |     |
| <b>Total Bill Increase</b>   | (\$)                  | (%)  | (\$)                 | (%) |
| Residential using 600 kilowatt-hours per month   | 33.12                 | 23.6 | 0.32                 | 0.2 |
| Commercial using 3,650 kilowatt-hours per month with a 25 kilowatt monthly demand      | 155.37                | 17.1 | 4.12                 | 0.5 |
| Industrial using 146,000 kilowatt-hours per month with a 1,000 kilowatt monthly demand | 5,899.50              | 19.7 | 47.87                | 0.2 |

**How the Revenue Will Be Spent:** The major driver of the electric revenue increase is from the estimated increase associated with the Company's forecasted growth in Net Plant.

**Other proposals relevant to ratepayers:** The rates are instituted on a temporary basis pending a final determination which will require full reconciliation.

**Return on Equity:** The temporary rates reflect an ROE of 9.2% which is unchanged from its prior rate plan. Return on equity is the percentage of return that shareholders' investment in a company earns. It is a measurement of the profits made relative to the amount of investment (equity) shareholders have made.
